While you are here... check out the Communities and Climate Change interactive display in the Discovery Centre and the Climate Change kiosk in the Sea-view Gallery, both inside the Museum and Art Gallery

Expo Program

Welcome to Darwin's first World Environment Day Expo.

It's a great opportunity to learn about our unique NT environment, find out about the different community organisations working for the NT environment and how you can get involved.

There's lots of activities, talks, workshops, films and music to listen to, so take a look at the program overleaf and get involved.

Hope you enjoy the day!

- WWF Australia
- Tourism Top End
- POD - Planet Organic Darwin
- Greenies Real Food
- Darwin Harbour Advisory Committee (DHAC)
- PAn - the Planning Action Network
- Gamba Action Group

Goals

- to build a stronger sense of community, mutual awareness and shared purpose within the NT environment sector - government and non-government.
- to provide an opportunity for the public to interact with and participate in the full range of NT environmental organisations and issues, leading to ongoing involvement.
- to generate discussion and debate on important environment issues and concerns within the environment sector and the wider community.
